

# TurtleSkin Safety Gloves

Engineered to Protect Against Punctures and Cuts

## TurtleSkin Utility Glove

Durable TurtleSkin Utility Gloves provide advanced levels of protection in the palm of the hand and are particularly well suited for applications where palm injuries are most likely to occur.

TurtleSkin Utility Gloves will soften with use, but will not fail to provide cut and puncture protection.

## TurtleSkin Utility- UPW-4D1

Feature the highest resistance to very fine penetrators like needlesticks, glass shards, and sharp wires. These patented gloves also soften and become more comfortable the more that you wear them.

Sizes: S - XL  
Machine Washable

Ordinary  
Aramid Knit

TurtleSkin  
Fabric Weave

## Chosen by NASA

TurtleSkin fabric has been to Mars and was also chosen by NASA for use on the space shuttle. Our patented weave is the tightest ever achieved with rugged, cut-resistant aramid fibers - effectively preventing fine penetrators from passing through the TurtleSkin fabric.

# Safety Gloves
